HOW THE MATTER IS VIEWED IN ENGLAND

A Disposition to Think Too Much Has Been Made of It, and it is Thought Diplomacy Will be Able to Smooth Over Any Friction That Has Occurred.

London, March 18, 5:40 p. m .-- On the highest official authority it is anpoonced that the difficulty at Tien Isin between the Russians and British over the construction of a railroad siding in territory claimed by both, probably will be solved by one withdrawal of both the British and Russian troops from the ground in

HOW IT IS VIEWED IN ENGLAND.

Disposition to Think Too Much Has Been Made of It.

London, March 18 .- There is a disseen made of the Anglo-Russian incident at Tien Tsin, and a more hopeful Bobbie H. view of the affair is taken. This is aided by the statement contained in Dr. Morrison's dispatch from Pekin, Sunday, to the London Times, which hear of his death at any minute. s taken to mean that the combined efforts of the interested powers are having the effect of causing St. Petersburg to check any tendency to undue aggressiveness on the part of the Russian representatives in China.

The comments of the afternoon newspapers here repeat the views of the majority of the morning papers, stove in the house of John Gauthier, namely, that diplomacy will be able to smooth the friction.

As to Manchuria.

The officials of the British foreign fice have not yet received official onfirmation of Eusia's alleged backdown in regard to Manchuria, Turkestan and Mongolia, and inquiries on the subject are now being ade at St. Petersburg and Pekin. The British foreign office is not relaxng its efforts to secure a more satisctory statement of the intentions of Russia, but the officials deprecate press agitation on the subject. On all sides it is officially and otherwise said that Great Britain has not the slightest contemplation of resorting to hostillties against Russia, whatever may be the outcome of the present nego-

FIRE RAGING IN ST. LOUIS.

Started In the Anheuser-Busch Ice House and Extended to American Car & Foundry Shops.

St. Louis, March 18 .- Fire which caused a general alarm broke out in the Anheuser-Busch icehouse, at the foot of Cherokee street, 3400 south, at 12:45 p. m., and immediately communicated to the fepair plant of the Missouri Car & Foundry Co.

A strong wind blowing from the southeast is driving the flame in the direction of other buildings used by the brewery and other manufacturing companies.

The fire is in a district well built up with substantial factories, and is the center of millions of dollars' worth of inflammable propety.

The general alarm had called out all the machines in the city except the six companies in widely-separated sections of the city, which are always held in reserve, and unmerous streams are being poured into the flaming

New York, March 18 .- A special to the Tribune from Washington says: So long as Cuba and Porto Rico were Spanish possessions the cultivation of coffee in the peninsula of Spain was forbidden. Under the changed condition the government shows a disposition to make no objection to an evasion of the law, which has pracand almost half a block square. The iteally become a dead letter and, according to a report received at the state department from United States Consul Ridgeley, at Malaga, an experiment on a commercial scale for the home production of the bean is about to be undertaken for the first time in the province of Malaga, at the little village of Campanilla, some five miles from the capital.

By Way of a Starter.

Don Quirico, Lopez, a rich wine merchant of Malaga, will begin by setting out from 20,000 to 50,000 coffee plants on his plantations there. Senor Lopez has already made some experiments, and is convinced that coffee can be advantageously grown in this province and elsewhere in Andalusia. Others who have examined the question say that there is not sufficient humidity in the Andalusian climate. Experiments on a large scale will be made, and the result is awaited with great interest.

Spain's Former Source of Supply. Cuba and Porto Rico formerly supplied Spain with nearly all her coffee, paying the government a consumption tax of \$9.60 on 220.46 pounds (100 kilograms) on all coffee entering the peninsula. At present the import duty on coffee is \$22.40 per 100 kilograms from all countries except the Spanish island of Fernando Po, and Spain's supply, last year, came largely from Valparaiso and other South American ports. Coffee from Fennando Po pays a duty of \$16.90 on 100 kilograms. If coffee can be successfully cultivated in the province of of Malaga, the consul says, it is believed

A commercial club to centralize and utilize the spirit of improvement in Marion would be worth more than can be estimated in dollars and cents. There are a great many things we could get if the proper effort was made; some of them may come our way anyhow, but the chances are otherwise. This is going to be a year of unprecedented development in this section and if Marion holds her own her citizens must wake up and persistently, intelligently and industriously set forth the town's advantages, and then spend no little energy in organizing industries and pushing them along.

[Special Arizona Letter.]

THAT a treasure house of strange tradition of an old Indian is. If one can only get possession of the key and claim entrance at any time, there is never a day but that he will be able to put hands upon some quaint, queer or fascinating legend. And these Indian stories are more than mere stories. They are revelations of Indian methods of thought. They show how history becomes legend, and, while we may not be able definitely to separate in these stories all that is legend from all that is history, we can, at least, do our own thinking upon the matter and arrive at our own conclusions.

On my last visit to the great reservation of the Navahos I became very friendly with one of the leading men of the tribe. He was a medicine man -a shaman-of great power, and known to the 20,000 of his compatriots as Hah-tath-li, or the Singing and Inughing Doctor. He was full of stories, legends, my-

thology, history, and when we had fully established our friendly relationship he talked to me by the hour of these hidden and romantic treasures of his mind.

Among other stories he told me this

THE DUTY OF MOTHERS.

What suffering frequently results from a mother's ignorance; or more frequently from a mother's neglect to properly instruct her daughter!

Tradition says "woman must suffer," and young women are so taught, There is a little truth and a great deal of exaggeration in this. If a young woman suffers severely she needs treatment, and her mother should see

that she gets it. Many mothers hesitate to take their daughters to a physician for examination; but no mother need hesitate to write freely about her daughter or herself to Mrs. Pinkham and secure the most efficient advice without charge. Mrs. Pinkham's address is Lynn, Mass.

THE MEMPHIS REUNION

MEMPHIS, Tenn., March 18 .- As the time approaches for the holding of the Confederate Reunion in this city in May the activity of the many commit tees in charge of the arrangements increases. Capt. T. D. Lawler, superintendent of hotels, acting under the reunion committee on hotels and accommodations, has finished a thorough canvass of the city, and reports that he is well satisfied with the result of his work. The doors of nearly all the citizens will be thrown open during the reunion, and all visitors will be properly cared for. The finance committee is continuing its work, and \$50,000 has been raised for the entertainment of the veterans. A massive structure will be built on the river front to be used for veterans only. A grand pavilion will be erected at Fourth and Court 1 streets, and will be used for a grand ball given in honor of the visiting sponsors. Drums and bugles have arrived for the drum corps of the Sons of Confederate Veterans, which will be a feature of the reunion parade.

Another feature of the reunion will be the presence of a United States warship. The gunboat Bancroft has been ordered to proceed to Memphis and remain here during the stay of old soldiers. The Bancroft, which is at present at Key West, will arrive before Memphis not later than May 26. The technical description of Uncle Sam's fighting machine is as follows:

Displacement, 839 tons. Steel hull, indicated horse power,

Speed, 14.37 knots.

Triple screw propulsion, four guns. The presence of the gunboat will be argely due to the efforts of Senator E. W. Carmack, who has personally called upon Secretary of the Navy Long and been persistent in his efforts to have the warship at Memphis during the reunion. The following order has been issued by Secretary Long:

"NAVY DEPARTMENT, Washington, D. C. "You will direct the commanding officer of the Bancroft to proceed with the vessel under his command to Memphis, Tenn., to arrive there not later than May 26th next, and to remain there until after the Confederate Reunion, which is to be held in that city beginning the 28th of May.

"Very Respectfully, "J. D. Long, Secretary. To the Commander-in-Chief United States

Naval Forces, North Atlantic Squadron." Advices received at reunion headquarters from all parts of the South indicate that the attendance will be a record-breaker. Letters from Arkansas and Texas tell of arrangements now making to have the largest representation in Memphis ever before sent to a reunion. Mississippi will also outdo herself on this occasion. The railroads have all agreed to a very cheap ratenamely, 1 cent a mile, and the steam-

The committee on badges has been given authority to design an official badge, and the work is rapidly progressing. More than 12,000 badges will be used, and the design will be both appropriate and handsome. The press committee will open a headquarters for visiting newspaper men, and every facility will be afforded for the prompt transmission of news. A register will be kept at these headquarters, and it is expected that all visiting newspaper men will call there and subscribe their names.

One of the especial features which the general committee hopes to make a brilliant success is the gathering together here of not less than a thousand of Forrest's old cavalry forces, and the plan has been suggested that they be brought into the city somewhat after the fashion that the Wizard of the Saddle did himself in the sixties, when he surprised Claiborne in the old Gayoso Hotel and, with a handful of men, sent many "funny feelings" into the hearts of the Federals. His headquarters were in Memphis at that time, and the only idea entertained by Gen. Forrest was to create a little consternation among what he considered the foes of the South

It is the purpose of a number of the survivors of the Forrest command to ride into Memphis horseback and rendezvous at a given point and then join in the mammoth parade. Information has been received from a number of the camps in this section regarding the matter, and it is believed there will be no trouble in getting up a thousand men. Of course the committees will want to know at the earliest possible moment how many will come from any given point, so that preparations in the parade can be made for their accommodation and assignment.

The committee of citizens which visited Washington and extended to President McKinley a courteous invitation to be present on the occasion of the reunion has returned. The president, while deeply grateful for the invitation, could not accept, but promised to try and visit the Bluff City at some fu-

Slapped by Congressman.

G. Barker of Maine recently instituted suit in the District Criminal Court of Washington for \$10,000 damages against Congressman S. B. Cooper of Texas for an alleged assault last summer, and a verdict was rendered in favor of the defendant. On the 31st of last May, while both were journeying from the South to Washington, Barker objected to Mr. Cooper expectorating upon the floor of the car, and after considerable remonstrances, the congressman slapped Barker in the face. This action led to the suit.

No matter how pleasant your surroundings, health, good health, is the foundation for enjoyment. Bowel trouble causes more aches and pains than all other diseases together, and when you get a good dose of bilious bile coursing through the blood life's a hell on earth. Millions of people are doctoring for chronic ailments that started with bad bowels, and they will never get better till the bowels are right. You know how it is-you neglect-get irregular-first suffer with a slight headache—bad taste in the mouth mornings, and general "all gone" feeling during the day-keep on going from bad to worse untill the suffering becomes awful, life loses its charms, and there is many a one that has been driven to suicidal relief. Educate your bowels with CASCARETS. Don't neglect the slightest irregularity. See that you have one natural, easy movement each day. CASCA-RETS tone the bowels-make them strongand after you have used them once you will wonder why it is that you have ever been

without them. You will find all your other disorders commence to get better at once, and soon you will be well by taking-

all bowel troubles, appendicitis, biliousness, bad breath, bad blood, wind on the stomach, bloated bowels, foul mouth, headache, indigestion, pimples, pains after eating, liver trouble, sallow complexion and dizziness. When your bowels don't move regularly you are getting sick. Constipation kills more people than all other diseases together. It is a starter for the chronic allments and long years of suffering that come afterwards. No matter what ails you, start taking CASCARETS to-day, for you will never get well and be well all the time until you put your bowels right. Take our advice; start with CASCARETS to-day, under an absolute guarantee to cure or money refunded.

Complete External and Internal Treatment for Every Humor. Consisting of CUTICURA SOAP (25c.), to cleanse the skin of crusts and scales and soften the thickened cuticle; CUTICURA CINTMENT (50c.), to instantly allay itching, inflammation, and irritation, and soothe and heal; and CUTICURA RESOLVENT (50c.), to cool and cleanse the blood. A SINGLE SET is often sufficient to cure the most torturing, disfiguring, and humiliating skin, scalp, and blood humors, with loss of hair, when all clee fails. Sold throughout the world.

Pimples, Blackheads, Red

Rough and Oily Skin

PREVENTED BY

MILLIONS of Women Use CUTICURA SOAP, assisted by Cuticura Ointment, the great skin cure, for preserving, puri-

fying, and beautifying the skin, for cleansing the scalp of crusts,

scales, and dandruff, and the stopping of falling hair, for softening,

whitening, and soothing red, rough, and sore hands, for baby

rashes, itchings, and chafings, in the form of baths for annoying

irritations and inflammations, or too free or offensive perspiration,

in the form of washes for ulcerative weaknesses, and many sanative

antiseptic purposes which readily suggest themselves to women and mothers, and for all the purposes of the toilet, bath, and nur-

sery. No amount of persuasion can induce those who have once

used these great skin purifiers and beautifiers to use any others.

CUTICURA SOAP combines delicate emollient properties derived

from CUTICURA, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odors. No

other medicated soap is to be compared with it for preserving, puri-

fying, and beautifying the skin, scalp, hair, and hands. No

other foreign or domestic toilet soap, however expensive, is to be

compared with it for all the purposes of the toilet, hath, and

nursery. Thus it combines in ONE SOAP at ONE PRICE, viz.:

TWENTY-FIVE CENTS, the BEST skin and complexion soap,

and the BEST toilet and baby soap in the world.
